Amazon KDP

Publications

Paperback and E-book

As a Professional Artist I spend most of my time painting. Painting en plein air and in my Studio. Paintings tell a story or you wouldn't have created them. Something catches your eye and you wish to capture it on your canvas.

The moment you decide you wish to sell them you cross over and become an Entrepreneur. Suddenly, there are many things you need and many hats to wear.

Marketing is done through many avenues, and in this course we are going to cover books. I have now written and assembled 2 books using Amazon Kindle Direct Publishing (KDP). The formats I chose were an e-book and a nice glossy paperback to showcase my artwork and tell the "Story behind the Story."

I choose Amazon KDP because there are few upfront costs and the books are printed on demand and shipped direct to your buyer and the e-books are simple downloaded.

Easy, Effective and Low Overhead

In this course You will receive:

- ◆ A Jump drive with Amazon Templates
- ◆ You will select the size and shape of your paperback book
- ◆ We will begin the layout following their guides
- ◆ Instruction in the assembly of your story.

You MUST bring :

1. Your laptop with USB adapter and be able to click and type. Your power cord to stay charged. I don't recommend a tablet.
2. Photos of your project
3. Ideas for your title
4. Outline of your story

I will Provide:

- ◆ Instruction on using the templates
- ◆ Assistance on how to import photos
- ◆ Work with you hands on to begin and get you comfortable with the process
- ◆ A referral to my freelance man to convert it into the KDP format, ready to upload.
